

CITY OF SPRINGFIELD
INTER-OFFICE MEMORANDUM

ATTENTION OF _____ FILE _____

DATE May 21, 1981

DEPARTMENT _____

On Tuesday, May 19, 1981, Bob Corson and I responded to a complaint from Evan Anderson, of 2333 N. Concord (862-3408) about an odor that he gets when he turns on his gas circulating heater. He thinks that it smells like sewer gas. There was no odor at the time we talked to him. The sewer main appeared to be flowing normally. That afternoon the flusher truck flushed out the line, but there was no apparent blockage in the line. I called Mrs. Anderson on Thursday, May 21, 1981 and told her that there was no stoppage in the city's sewer main. She said they were still getting the odor when they turned on their heater. She also said a C.U. leak inspector had found two small leaks in their gas line and were going to replace the line on Friday.

DEPARTMENT

Gary Price of C.U. (831-8678) was referred to me by David Duffield in regard to his "in-laws" home at 2333 N. Concord (862-3408). Each time they turn on a gas circulating heater they get a smell of "rotten garbage". They have had customer service at C.U. check for a gas leak and they found nothing. They wonder if it could be sewer gas. It appears to be on Lot 5 on the west side of Concord north of Turner, wye map H-9.
